/ SUMMARY

Eager and motivated final year student with a passion for full stack development, seeking an internship opportunity to apply and enhance skills in MERN stack development, while contributing to innovative and impactful projects in a dynamic team environment.

/ SKILL

- Programming Languages: JavaScript, HTML, CSS, Java, C++
- Frontend Development: React, Redux, Bootstrap
- Backend Development: Node.js, Express.js
- Databases: MongoDB, MySQL
- Other Tools: Git, GitHub, Visual Studio Code, Postman, Heroku

/ PROJECTS

FOOD APP

Developed a food and meal planning platform with features such as a meal catalogue, shopping cart, payment processing, and meal reviews. Technologies used: MongoDB, JavaScript, Heroku, and Stripe API for payments. Features include user authentication, authorizations, and a database management System.

WEB SCRAPPER

This uses the 'request' and 'cheerio' libraries in Node.js to scrape the HTML content from the specified URL. It then uses Cheerio to load the HTML and extracts all the desired elements from the page.
